What is ?

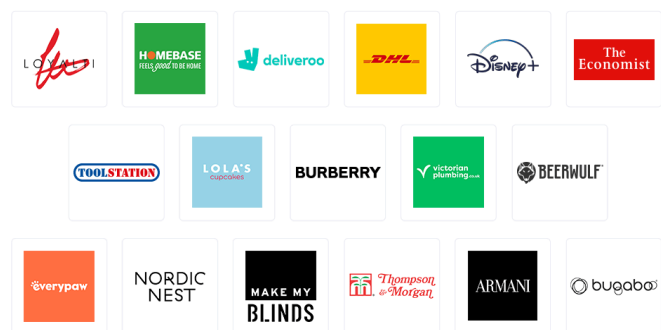

Easyfundraising is the UK's biggest charity fundraising site launched to help causes raise funds through everyday online shopping at no additional cost for buyers. Founded in 2005, it operates by partnering with thousands of retailers who donate a percentage of shoppers' spending to their chosen cause. The mission is to make a positive difference by enabling supporters to effortlessly generate donations without additional cost.

How does it work?

Easyfundraising allows you to support their favorite causes through everyday online shopping without any extra cost. You start at the Easyfundraising website or app, choose a retailer, and make a purchase as usual. The retailer then donates a percentage of the purchase price to the chosen cause. Over 7,000 brands participate, covering the cost of donations. The platform also offers a browser extension and an app to remind you of donation opportunities, ensuring seamless integration into their shopping habits.

How much will I raise for VTO?

Donation rates per purchase typically range from 0.5% to 10%. Additionally, some retailers, like insurance and broadband providers, offer flat fees for donations, which can amount to several hundred pounds.

Why is this important?

Using Easyfundraising ensures a steady stream of donations throughout the year. It's an effortless method to consistently raise funds alongside other initiatives. Once registered, you generate a donation every time you shop online via Easyfundraising, whether for groceries, car insurance, holidays, or switching energy providers.
